Digital Twin Project Open Call

Digital Twin Project Open Call Form

Open call to all artists interested in participating to create a digital record of their work with a focus on geographical place and how light and sound impact how a work of art is experienced. This project offers a unique way to present, document and view a new or existing art project.

Follow the instructions below and use this form to share your recording for consideration.

Recording Instructions

-Recommended equipment: cell phone or tablet, an app like Lapse It or the function built into your phone is good, compass (phone app or real) and tripod.

-To avoid interruptions consider an external power or USB battery and turn off phone/remove sim card to avoid phone call interrupting recording.

-Find source of natural light and that all unneeded/unnatural lights are turned off.

-Place art in the south

-Place camera in the north

-Consider recording during sunset

-Record using timelapse

-Shoot for one hour

All files must be unedited. File size under 100mb and MP4 and length no longer than 2 minutes.

Artist Information

Name

Email

Phone Number

Instagram and/or website

Bio (maximum 250 words)

Artist name, title, date, medium, dimensions

Geolocation coordinates for placement of work Example: 49°17'40"N 2°34'20"E. You may use the compass on your phone to find your geolocation coordinates.
