## Digital Twin Project Open Call

### Digital Twin Project Open Call Form

Open call to all artists interested in participating in the Digital Twin project to create a digital record of their work with a focus on geographical place and how light and environment impact how a work of art is experienced. This project offers a unique way to present, document and view a new or previous existing art project.

#### **Recording Instructions**

Follow instructions and use this form to share your recording for consideration.

#### **Equipment**

Cell phone or tablet, an app like Lapse It or the function built into your phone is good, a compass (phone app or real) to determine north and south placement, and tripod.

#### **Instructions**

File size should be under 100mb, MP4, and length no longer than 2 minutes. For all recording instruction details go to [thinkfiner.com/open-call](http://thinkfiner.com/open-call)

### **Artist Information**

Name

Email

Phone Number

Instagram and/or website

Bio (maximum 250 words)

Artist name, title, date, medium, dimensions

Geolocation coordinates for placement of work Example: 49°17'40"N 2°34'20"E. You may use the compass on your phone to find your geolocation coordinates.
